

Marishka Manoj Mehta

PhD Candidate · Computational Psychiatry

Laureate Institute for Brain Research · Tulsa, OK · marishka.mehta@gmail.com
marishkamehta.github.io · Google Scholar · ORCID · GitHub

Education

PhD, Cyber Studies (Specialization: Data Science and Psychology) Aug 2022 – early 2027 (expected)
The University of Tulsa

M.A., Psychology 2019 – 2021
New York University, Graduate School of Arts and Sciences
Thesis: Examining neural correlates of reward and punishment learning in depression · advised by Dr. Laurel Morris (Morris Lab, Mount Sinai).

Post Graduate Diploma, Clinical and Community Psychology 2018 – 2019
The Maharaja Sayajirao University of Baroda, India

M.Sc., Neuroscience (Neurasmus Dual Diploma) 2015 – 2019
University of Bordeaux (France) & Laval University (Canada)

- Bordeaux (2015–2017) · *Thesis:* Impact of stress and its interaction with high-fat diet on memory in corticosteroid-binding globulin (CBG) deficient mice.
- Laval (2017–2019) · *Thesis:* Role of Slitrk2 and Slitrk5 in axonal growth and guidance in midbrain dopaminergic neurons.

B.Sc. (Hons.), Biomedical Science 2012 – 2015
Queen Mary, University of London

Fellowships, Awards & Honors

Dissertation Completion Fellowship Jun 2026 – May 2027
The University of Tulsa

Trainee Professional Development Award (\$1,000) Nov 2025
Society for Neuroscience

Distinguished Graduate Research Award — nominee Apr 2025
The University of Tulsa

Waived Membership, Early Career Scientists Dec 2024
Society of Biological Psychiatry

Hurricane Pitch Competition — 2nd Place (\$3,500) 2024
The University of Tulsa

Honorable Mention

May 2021

NYU Psychology Masters Research Conference

FidEX Scholarship (€9,000)

Oct 2016 – Jul 2017

University of Bordeaux

Science and Engineering Excellence Scholarship (£15,000)

Sep 2012 – May 2015

Queen Mary, University of London

Research Positions

Graduate Research Assistant

Aug 2022 – present

Laureate Institute for Brain Research, Tulsa, OK · PI: Dr. Ryan Smith

Clinical Research Coordinator

Jul 2021 – Jul 2022

Depression and Anxiety Center, Icahn School of Medicine at Mount Sinai, New York, NY · PI: Dr. Laurel Morris

Graduate Teaching Assistant, Scientific Programming

Jan–May 2021, Jan–May 2022

New York University, New York, NY

Peer-Reviewed Publications

Author name in **bold**. Numbered in reverse chronological order.

2025

1. **Mehta, M. M.**, Hakimi, N. H., Pena, O., Torres, T., Goldman, C. G., Lavalley, C., Stewart, J. S., Berg, H., Ironside, M., Paulus, M. P., Aupperle, R., & Smith, R. (2025). Computational mechanisms of approach-avoidance conflict predictively differentiate between affective and substance use disorders. *Computational Psychiatry*. <https://doi.org/10.5334/cpsy.131>
2. **Mehta, M. M.**, Paulus, M. P., & Smith, R. (2025). Computational approaches for uncovering interoceptive mechanisms in psychiatric disorders and their biological basis. In *Perceptual Dysregulation in Psychiatric Nosology*. https://doi.org/10.1007/7854_2024_572
3. Lavalley, C. A., **Mehta, M. M.**, Taylor, S., Chuning, A. E., Stewart, J. L., Huys, Q. J. M., Khalsa, S. S., Paulus, M. P., & Smith, R. (2025). Computational mechanisms underlying multi-step planning deficits in methamphetamine use disorder. *Translational Psychiatry*. <https://doi.org/10.1038/s41398-025-03390-8>
4. Hodson, R., **Mehta, M.**, Taylor, S., Lavalley, C., Stewart, J. S., Guinjoan, S. M., Ironside, M., White, E., Kupulicki, R., Paulus, M. P., & Smith, R. (2025). Attenuated learning rates for negative outcomes in substance use disorders: A replication and extension of prior longitudinal computational modeling results. *Drug and Alcohol Dependence*. <https://doi.org/10.1016/j.drugalcdep.2025.112922>
5. Beltrán, J., Jacob, Y., **Mehta, M. M.**, Hossain, T., Adams, A., Fontaine, A., Torous, J., McDonough, C., Johnson, M., Delgado, A., Murrough, J. W., & Morris, L. S. (2025). Digital measures of activity and motivation impact depression and anxiety in the real world. *npj Digital Medicine*. [Link](#)

Manuscripts Under Review and In Preparation

- **Mehta, M. M.**, Lavalley, C. A., Chuning, A., Stewart, J. L., Huys, Q. J. M., Khalsa, S. S., Paulus, M. P., & Smith, R. Neurocomputational mechanisms of cognitive avoidance during prospective planning:

effects of interoceptive anxiety induction in affective disorders. *In preparation.*

Invited Talks

1. **Neurocomputational mechanisms of maladaptive avoidance.** Graduate Research Celebration Day, The University of Tulsa · April 14, 2025 · *Distinguished Graduate Research Award nominee.*
 2. **Pre-registered replication of longitudinal computational modeling results confirming differences in approach-avoidance conflict behavior within anxiety, depression, and substance use disorders.** Computational Psychiatry Conference · Minneapolis, MN · 2024.
 3. **Comparing denoising approaches in ultra-high field resting-state fMRI.** Center for Computational Psychiatry · 2021.
 4. **Role of Slitrk2 and Slitrk5 on axonal growth and guidance in midbrain dopaminergic neurons.** 6th Annual Neurasmus Meeting · Göttingen, Germany · 2017.
-

Selected Posters

1. **Mehta, M. M.,** Lavalley, C. A., Chuning, A., Stewart, J. L., Huys, Q. J. M., Khalsa, S. S., Paulus, M. P., & Smith, R. (Nov 2025). *Neurocomputational mechanisms of cognitive avoidance during prospective planning: effects of interoceptive anxiety induction in affective disorders.* Society for Neuroscience, San Diego, CA.
 2. **Mehta, M. M.,** Sanchez, O., Hakimi, N., Torres, T., Lavalley, C. A., Taylor, S., Stewart, J. L., Khalsa, S. S., Berg, H., Ironside, M., Paulus, M. P., Aupperle, A., & Smith, R. (Jul 2024). *Pre-registered replication of longitudinal computational modelling results confirming differences in approach-avoidance conflict behavior within anxiety, depression, and substance use disorders.* Computational Psychiatry Conference, Minneapolis, MN.
 3. **Mehta, M.,** Jacob, Y., & Morris, L. (May 2022). *Comparing denoising approaches in ultra-high field resting-state fMRI.* Society of Biological Psychiatry, New Orleans, LA.
 4. **Mehta, M.,** Tubridy, S., & Morris, L. (May 2021). *Neural correlates of reward and punishment learning in major depressive disorder.* 25th Annual NYU Psychology Masters Research Conference, New York, NY. *Honorable Mention.*
 5. **Mehta, M.,** Salesse, C., Charest, J., Doucet-Beaupré, H., De Koninck, P., & Lévesque, M. (Jul 2017). *Role of Slitrk2 and Slitrk5 on axonal growth and guidance in midbrain dopaminergic neurons.* 6th Annual Neurasmus Meeting, Göttingen, Germany.
-

Teaching & Mentoring

Teaching

- Graduate Teaching Assistant, Scientific Programming — New York University · Jan–May 2021, Jan–May 2022

- Python workshops for Master's students — Morris Lab, Mount Sinai · 2021–2022

Mentoring

- Graduate and undergraduate students — Laureate Institute for Brain Research · 2022–present
 - High school student — Morris Lab, Mount Sinai · 2021–2022
-

Professional Service

Peer review

- Ad hoc reviewer: *Psychological Medicine* · *Nature Mental Health* · *Scientific Reports*

Judging & panels

- Poster judge, Research Day, Laureate Institute for Brain Research · 2025
 - Panelist, *Peer Review and Publishing Panel* — Student Fellowship and Training Subcommittee, Laureate Institute for Brain Research · 2025
 - Volunteer, Scientific Review Committee — Tulsa Regional Science Fair, Tulsa Regional STEM Alliance · 2024
-

Technical Skills

Computational modeling · Bayesian hierarchical modeling (VBA toolbox), reinforcement learning (model-based / model-free), active inference, DCM

Neuroimaging · 3T and 7T fMRI; fMRIPrep, FSL, SPM, AFNI, MEICA; nilearn

Statistics · Frequentist and Bayesian statistical tests, mixed-effects models, path analysis

Machine learning · Ensemble modeling (caretEnsemble, R), cross-validation

Programming · Python (NumPy, pandas, scipy, matplotlib, Jupyter), R, MATLAB

Task design & data collection · PsychoPy, jsPsych, REDCap

Open & reproducible science · Preregistration (incl. published preregistered study), Git, SLURM-based HPC

Clinical research · Structured clinical interviews, standardized symptom assessments, IRB coordination
